

Amendments to the Drawings

New Formal Drawing Sheets are being submitted in the accompanying papers with the Issue Fee for the present application. As requested by the Examiner, these Formal Drawing Sheets include proper cross-hatching of both the conductive layers and the insulation layers of the present invention.

Additionally, the Formal Drawing Sheets reflect a further change made to FIG. 3S. In FIG. 3S, the bottom-most element 210 has been corrected to be 221. A Replacement Sheet and Annotated Sheet showing the change made in FIG. 3S are attached to this Amendment.

Remarks

By the present Amendment, Claims 1-3, 5-39 and 41-75 remain pending. Dependent Claims 42 through 75 have been added. Applicants respectfully submit that no new matter has been added to the present application.

The present Amendment adds dependent claims to allowable independent Claims 41 and 42. Specifically, new dependent Claims 42-64 depend from allowable independent Claim 41 and new dependent Claims 65-75 depend from allowable independent Claim 42. No new issues of patentability are raised by the addition of these dependent claims as each of the additional dependent claims is allowable as a matter of law as depending from an allowable independent claim, notwithstanding their independent recitation of patentable subject matter. Therefore, Applicants respectfully request the entry of this present Amendment prior to the issuance of the present application.

Conclusion

It is not believed that extensions of time or fees for net addition of claims are required beyond those which may be otherwise provided for in the documents accompanying this paper. However, in the event that additional extensions of time are necessary to allow consideration of this paper, such extensions are hereby petitioned under 37 CFR § 1.136(a), and any fee required therefore (including fees for net addition of claims) is hereby authorized to be charged to Deposit Account No. 19-5029.
